Valuable Prizes for Powell County Boys Who Grow Corn.

The State Department of Agriculture is very anxious to have a boys' corn growing contest organized in this county. So far there has been \$17.50 subscribed for prizes for the boys who will enter the contest and grow corn according to instructions. The corn will be furnished free by the Agricultural Department. And if as many as fifty boys between the ages of 10 and 16 years old will give their names, ages and addresses to J. E. Burgher, Clay City, I. G. Profitt, Supt. of Schools, or Fred Blackburn, Stanton, they will be enrolled and the corn furnished them. Would like to have large as a prize offering as possible, so all who feel interested and are in position to add to the list for prizes will please do so.

The boys are to plant and cultivate the corn themselves. If they prefer to do so they may use any other kind of white corn they please to use. In addition to the chance for a prize at the corn show, the following is offered them. Any boy who raises 60 bushels or more on an acre, or 30 bushels or more on one-half acre will receive a nice lithographed diploma, signed by the Governor of the State, the Commissioner of Agriculture and the Superintendent of Public Instruction. The lessons learned by following the instruction, the bulletins furnished and the profit realized by an up-to-date method of cultivation are also important facts to be considered. So boys don't let this opportunity pass you, but take advantage of it and be preparing yourself for the future. Be learning how to get a greater yield per acre, for it will not only make farming more profitable for you, but will also help

our country, for the day is coming when there will have to be a greater yield per acre or there will not be enough food raised in this country to supply the demand. Parents and teachers are requested to encourage the boys in this work. The corn show will be held at Stanton the latter part of October or the first part of November. Will have an expert corn judge to pick the winning exhibits. Following is the list of prizes offered so far.

Powell County Deposit Bank for best 100 ears grown from not less than one acre, \$10.00

Hardwick & Co. for fewest number of ears that will make a bushel weighed or measured, suit of clothes, 10.00

Clay City Times for the most prolific stalk of corn any color, \$5.00 in gold, and three years subscription to the Times, 8.00

Atkinson and Lyle for best diary or record kept of the cultivation of one-half acre of corn from the breaking of the ground to the gathering of the corn thereof, one suit of clothes, 7.50

Fred Blackburn for best single ear, 5.00

Robt. Blackburn for best 50 ears, 5.00

Jesse Crowe for second best single ear any thing in my line of merchandise, 2.50

W.T. Center for second best 50 ears, 1 pair shoes, 2.50

George Stephens for best half bushel seed corn, 2.50

W. G. Frazier for best ten ears, 2.50

Hogs have taken a tumble in market until none of the best ones are now bringing \$7 per hundred.

The Moving Habit.

The Inland Farmer very aptly says: "It is very bad for any farmer to get in the moving habit. Don't do it. If you are doing fairly well where you are, stay there and try to improve your condition in every way. Make the land better both by fertilizer and cultivation. Put up more needed buildings. Fence off the fields more suitably. Beautify the premises. Devise better methods of making money."

If you do move, by all means consider everything well first. Visit the section where you propose to settle and take in the full situation. It will probably be better to rent a place the first year and see how you are going to like the country. It will not then be hard to retrace your steps provided you are not satisfied. Beware of tying yourself up too hastily.

By all means beware of acquiring the moving habit. It is better to preserve attachment for some particular locality which you will call home.

Shooting in Breathitt.

According to a telephone message received at Jackson, in Breathitt county, Jason Deaton was shot and killed by Anse White, a brother-in-law of John Abner. Deaton was accused of murdering Abner in Jackson last summer. White played an important part in the famous Hargis-Callahan trials at Lexington.

In Balloon Race Again.

H. E. Honeywell, one of the two men who fell in a balloon near Xena, this county two years ago, while attempting to win the Lahm Cup, a prize held by the man who makes the greatest distance in a balloon, has started from San Antonio, Tex. to again try to win the cup.

Expensive Trial.

The trial of Dr. David S. Amoss at Hopkinsville on one indictment charging night riding cost the state of Kentucky more than \$4,000 and Christian county nearly \$600. There are five more indictments against alleged night riders in that county and all those so indicted are most sure to come clear as did Dr. Amoss.

Tobacco Growing.

The report comes from many of the bluegrass counties that the acreage of tobacco will be as large this year as last notwithstanding the slump in prices. Powell county farmers are not so eager to get rich quick as last year, thus but little of the weed will be grown in this county this year.

Marshal A. T. Petitt has bought a house and several vacant lots adjoining from the Kentucky Union Company at \$400.

Mrs. J. W. Williams has just received a nice shipment of elegant lace curtains that will please her lady customers. Ask to see them when you are at this store.

WANTED—Salesman and Collector on salary and commission to sell Sewing Machines and collect on accounts. Party must furnish horse and wagon. Call on or write to Singer Sewing Machine Co., Incorporated, Winchester, Ky.

THOMAS S. RHEA, of LOGAN COUNTY, has authorized the announcement of his candidacy for Treasurer of the State of Kentucky, subject to the action of the Democratic Primary election to be held July 1st, 1911.

Mr. Rhea is a native of Russellville and has lived there all of his life. For four years he was Sheriff of Logan County. At the expiration of his term of office he was elected Vice-President of the Bank of Russellville and has since that time been the general manager of the Bank. He holds this position now and has made for himself an enviable reputation as a financier and business man. He is a brother of the Hon. John S. Rhea, former Representative in Congress from the Third district, and is one of the most widely known young Democrats in the State. His advice and counsel is always in demand. He is a tireless worker and is never happier than when engaged in a political combat.

Mr. Rhea stands in the foremost ranks at home and his friends throughout the State think his name on a State ticket would bring much strength to the party in November.

If all of the vote sellers were dealt with as they will be in Floyd county—disfranchised—the Tenth would probably proudly take a seat in the Democratic column again.—Clay City Times.

To offset this, if all the Democrats that sold their votes in the late city primary here were disfranchised, the Democratic majority in this county would be materially reduced.—Sun-Sentinel.

As the editor of the Sun-Sen-

tinel knows so much of vote selling in the recent Democratic city primary at Winchester the officers should have him summoned before the next grand jury to make some indictments. We are opposed to vote selling wherever it may be and from the above article hope to see this needed reformation begun in our sister city if its so bad as stated by the Sun Sentinel which in no way are we disputing until we hear from the grand jury report.

If O'Rear would make such a good Governor as his ardent supporters claim, why not keep him on the Appellate bench where good officers are frequently needed worse than in the Governors chair. Let him stay where he is and let J. B. McCreary have the place unanimously. He is also a good man. Why not have a good Governor and a good Appellate Judge too now that we have an opportunity to do so? The voters of Kentucky will see to it that this is done.

The Estill Fiscal court at its April term took steps of buy a rock crusher, looking to the permanent improvement of the roads in the county with metal. Good for our neighbor, but they can't beat Powell. If they get one rock crusher, we will get two in Powell. We are going to lead all the mountain counties in good roads and bridges, we already having five handsome steel bridges and prospects good for two more this year, then we will go onto the permanent improvement of our roads.

The roads, the roads, the roads, are all mud, but how can they help but be so when, generally speaking, the roads are but one great ditch which affords the only drainage for some farms. We must progress, and the opportunity lies chiefly in the improvement of our roads and farms. Let's all begin today.

Our advertisers are encroaching on our space a little each week. We hope to soon see them crowd us to a six column paper. Veritably is advertising one-half the life of the newspaper and seven-eights of the life of the business advertised.

A vote against O'Rear for Governor this fall is a vote for O'Rear for Judge of the Court of Appeals.

Hanna's Green Seal "The Made-to-Wear Paint"

If you expect to do any painting, you are interested—you should be—in the quality of the paint to be used.

In any given job of painting, labor represents practically two-thirds, material one-third the cost.

It stands to reason that with so much expense in labor, the enduring quality of the paint is all important.

Why have the painting done unless the protection and durability of the job is sought?

How is one to determine the true value and obtain paint that may be depended upon for durability?

HANNA'S GREEN SEAL PAINT IS NOT A SECRET. This paint has the printed formula on every package.

The makers have confidence and take pride in the quality and tell the public the composition of the paint.

IS THIS OF ANY VALUE TO YOU? IT OUGHT TO BE.

Silence!

The instinct of modesty natural to every woman is often a great hindrance to the cure of womanly diseases. Women shrink from the personal questions of the local physician which seem indecent. The thought of examination is abhorrent to them, and so they abide in silence a condition of disease which surely progresses from bad to worse.

It has been Dr. Pierce's privilege to care a great many women who have found a refuge for modesty in his offer of FREE consultation by letter. All correspondence is held as sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription restores and regulates the womanly functions, abolishes pain and builds up and puts the finishing touch of health on every weak woman who gives it a fair trial.

THE END OF TUBERCULOSIS

Start in the Schools.

By GEORGE F. CANFIELD.

The school is probably the most hopeful field for our labors against tuberculosis. For immediate practical results in lowering the death rate the hospitals, dispensaries and visiting nurses are perhaps more important, but for the achievement of final victory the school offers the best opportunity. There we can apply ourselves to forming right habits instead of trying to change bad ones. There we have the best chance to arrest the germ before it starts on its deadly work. There through the education of the children we can most thoroughly and effectively educate the whole community.

Woman's Friend

Nearly all women suffer at times from female ailments. Some women suffer more acutely and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women, prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

TAKE CARDUI

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.
